72' Sequoia Tree with
Custom Snowfall Topper

sequoia tree collection

The Sequoia Tree Collection represents the next generation in giant Christmas Tree construction. This is the first tower tree to receive the RSE (Registered Structural Engineer) stamp of approval, making it the safest tree on the market. The Sequoia Tree features self-shaping branches that reduces assembly time and ensures your tree looks fantastic each year!

All Sequoias have two-tone UV treated foliage with premium tips that are double the industry standard. This tree comes pre-lit with warm white LED mini lights, providing energy savings of up to 90% over traditional incandescent bulbs.

Each Sequoia frame is marked and designed to be stacked vertically, level by level, and follows a simple letter and numbering system. The power cords run between rows and are easily accessed to power branches and the tree topper.

Our Sequoia standard branches easily fit into their custom metal sleeves for secure placement. Hook the first branch into the sleeve closest to the socket of the runline. Work your way down hooking the branches and connecting the power for the light strings together until all branches are installed.

These patented, self-shaping branches are shaped before packing and "spring back" into form right out of the box! The result is a great-looking tree that takes less time to fluff, set up, and assemble.

- All UL-Approved Electrical Components
- "Spring Back" Self-Shaping UV-Treated Branches
- 10-Year Warranty on Metal Frame
- Available with LED Mini Lights, LED C7 Lights, or RGB Lighting
- Patent No. 8,272,754

Sizing for 30' Sequoia Tree Frame

5' Topper Tree

5' Topper Pole with 6 Special Branches, Tips Marked Red
    6 Branches

2' Section A - 6 Branches

NEW LOW-VOLTAGE
sequoia trees

Our new 24V Low-Voltage Sequoia Trees have the same high specifications as our existing standard 120v Sequoia Trees with many new features! Keeping up with our standard of providing the safest trees on the market, our new Low-Voltage Sequoia Trees not only have an RSE (Registered Structural Engineer) stamp of approval, we now have a 24v Lighting System that is one of safest in the world, and can be used in all types of weather.

Features:
- UV-treated foliage with premium tips
- Patented self-shaping branches
- LED low-voltage lighting safe for operation around water features, amusement theme parks, photo ops, interactive holiday programs
- Waterproof lighting ensures safety anywhere the tree is accessible to the public and in all weather conditions
- 10-year warranty on the metal frame
- Power components UL, CSA, CE approved

Transformers:
- UL, CE, CSA Approved
- Rated IP68 – Waterproof LED Supply for Indoor or Outdoor application
- Built-In Active PFC (Power Factory Corrector)
- Meet IEC energy efficient standards
- Universal Power Supply 100-277v
- 5-Year Warranty

24v Low Voltage Lighting:
- Same brilliant illumination as standard lighting
- Warm White LED bulbs – 98L per branch
- Dark green wire and sockets to match tree branch color
- 6mm diameter concaved caps
- Each bulb secured with shrinkable tubing, water tight glue

Cabling System:
- All cables and connection are rubber insulated
- Screw Cap Connectors to prevent any weather penetration
- Black wiring and connections to hide wiring system

300W 24V DC

78' RGB Premium Tree with
Custom Snowfall Topper

RGB
lighting collection

Bring animated magic to this holiday season by adding one of our RGB Sequoia Trees! RGB lighting takes your holiday tree to the next level with lights synchronized with music to produce a spellbinding light show and must-see production that keeps people coming back!

Our easy-to-install RGB Sequoia Trees are programmed to perform unlimited light and color-changing sequences on a schedule you set. We can custom create a one-of-kind light show for you or you can choose from our curated library of music and pre-programmed shows.

We program, design, and develop every RGB Tree to ensure a seamless experience. These trees include instructional manuals and phone support with an RGB Specialist.

DESIGN YOUR OWN HOLIDAY PRODUCTION!

neon flexible lighting

Engineered to last with clean lines and a vivid bright light, Neon Flexible Lighting allows designers to create original shapes and motifs for both indoor and outdoor applications without hotspots. The Neon Flexible Lighting has high brightness, is protected against UV rays, and is enclosed in special flexible PVC housing, which allows the product to be bent in different winding shapes.

• 120 LEDs/m, 7.2 watts/m
• Beam 120
• Can be cut to size on site
• Pre-finished front connector & end cap
• Spools have attached power connector and end cap on dead end

Neon Flexible Lighting

67' (20m)/24V Roll
Accessories included: five 7' long power cords, five end caps, $^1/_2$ meter cuts
Transformer sold separately — 100watt 24V transformer will power 10m of Neon Flex.

Custom Ropelight Design
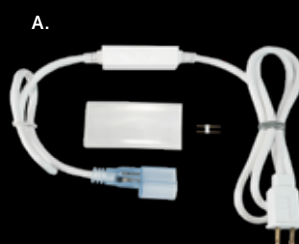

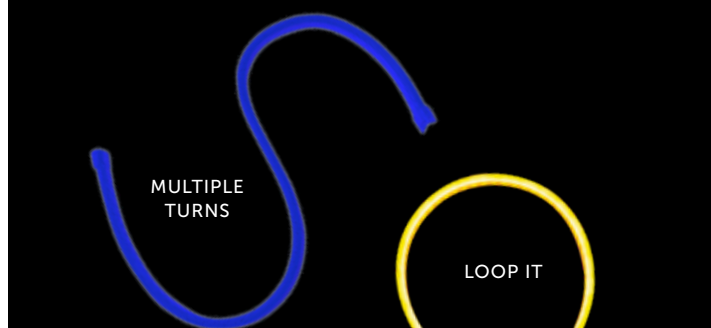

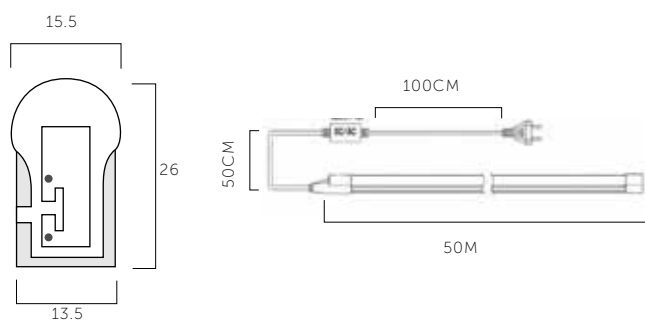

ropelight lighting

LED Ropelight Spool

Our LED Ropelight is the highest quality, designed for professional use in both indoor and outdoor applications. Custom ropelight designs are available.

- 13mm (1/2") 150' length, 120 watts, 35 lb.
- Can be cut every 39.2" notated on the ropelight
- Up to 50,000 hour bulb life; if one LED fails, the others remain lit
- Connect up to 300 feet on one power cord
- Uses approximately 0.8 watts per foot
- Each roll includes three (3) sets of 6' power cords, power cord connectors and end caps, heat shrink protection

with LED Ropelight

LED Ropelight

Our LED Ropelight is made with more resistors per circuit in order to achieve the best performance and reliability possible. In addition, our LEDs are designed with lenses that diffuse the light up to 120 degrees, which makes them brighter and more visible from all angles.

- Ideal for Outlining Building Perimeter, Amusement Parks, Patios & Decks, Marine Applications, Holiday Light Sculptures, Window Displays, Stairs & Walkways.
- Accessory Pack: three (3) Power Cords, three (3) End Caps, three (3) Splice Connectors, thirty (30) Mounting Clips; 5ft SJT Power Cord has 2-Prong, polarized, fused plug
- Cut in 72" Lengths; If lamps in a series fail, remaining lamps stay lit.
- Replace any series by splicing in a new series of lamps.
- Horizontal Bulb Placement

SMD LED
C7 & C9 *lighting*

The SMD (Surface-Mounted Diodes) LED bulbs create a glow that beams from all angles. These virtually unbreakable bulbs are fade resistant energy efficient, with double the lumen output of DIP (Dual In-Line Package) technology. They are fully dimmable for animation.

A. LED C7 Opaque Bulbs
.58 watts each, 6 LED lights in each bulb, replacement bulbs, sold in sets of 25 bulbs, 500 bulbs per case

LBRGB-TRN5A

D. 37.5 Amp Transformer
- 12V DC
- 960-bulb capacity

LBRGB-TRN37.5A

E. Basic T Connector
- Delivers power from WEC to light strands
- Used to connect additional lighting

LBRGBP-TWAY12

F. Power T Connector
- Helps power WEC
- Extends the maximum capacity of your display
- Injects power after 75-100 lights

LBRGBP-POWERT

G. Smart T Connector
- Extends the maximum capacity of your display
- Connects multiple light strands to a single output

LBRGBP-SMTWAY12

H. Raspberry Pi Assembly
- This assembly connects to your Network Distribution Box and delivers data to your RGB lights
- Connects to speakers for music-coordinated displays
- We program this kit with all of your custom light displays so you don't have to worry about the technical aspects of your light show.

I. Network Distribution Box (NDB) Assembly
- Manages and distributes RGB software to your lights
- Handles displays up to 16 ports
- Large RGB displays typically require multiple NDBs
- All RGB products that require an NDB will come with all necessary equipment

LBRGBP-NDB

J. Spacer Cable
- Used to lengthen display connections
- Three-wire cables

warranty information

WARRANTY

We warranty to the original buyer that all of our displays and accessories are free from manufacturer's defects. Under normal conditions of use and service, this protection is extended for six (6) seasons on all steel frames, five (5) seasons on garland, three (3) seasons on electrical wiring, and one (1) season on all computerized lighting modules. This warranty does not apply to light bulbs or light strands installed on décor elements. Pole Mount displays are designed to withstand up to 40 mph winds with no ice load. Obligation under this warranty is limited to repairing or replacing any part that is found to be defective.

LED light strands have a warranty for three (3) 60-day seasons or 25,000 hours, whichever comes first. Simply ship the product to us and we will replace the LED light strand free of charge.

Frame Trees are covered by a 10-year warranty against defect under normal conditions and use, excluding lights and ornamentation.

All items not specifically listed are covered by a one (1) season (60 day) warranty.

Under this warranty, the company's obligation to repair or replace is on a non-prorated basis.

Labor to install and the cost of shipping are not included in this warranty and are expressly in lieu of all other warranties expressed or implied. Bulb burnouts or electrical damage caused by the buyer or weather elements, or damage caused by rough handling in transit are not covered by this warranty. Therefore, units should be inspected and tested for bulb outage upon delivery and prior to installation. All merchandise is carefully inspected before packing and is packed in an approved manner in approved cartons when it leaves the warehouse.

For the purposes of this warranty one (1) season is defined as one installation and removal for a duration lasting no more than 60 days.

RETURN POLICY

Merchandise returns will not be accepted without written authorization. Return requests will be accepted for credit if submitted and approved within 30 days of receipt of product. Any returned products under the following conditions will result in a 20% restocking fee and customer will incur the freight charges: customer ordered incorrect product and/or never opened or used product for its intended purpose.

ACCEPTANCE OF MERCHANDISE

Consignee/customer is responsible to notify Dekra-Lite of all impending claim(s) of merchandise delayed, lost, or damaged in transit. When accepting shipment, consignee/customer must inspect all merchandise completely and any claims of any missing cartons or visible damage must be noted on delivery driver's bill of lading or the receipt of delivery. All claims must be filed with Dekra-Lite within 48 hours of delivery or in the case of concealed damage, within 48 hours of identifying the concealed damages. Customer/consignee is to provide required information and evidence of damage or loss according Dekra-Lite claims procedure. This may include preservation of evidence of damage/loss for future inspection. Failure to follow Dekra-Lite claims procedure may result in claim denial by the carrier.

Prices are subject to change.
